PORTFOLIO

EDUCATION

University of Connecticut Expected May 2029

B.S., Analytics and Information Management (AIM) | Storrs, CT

PRODUCT & ENGINEERING EXPERIENCE

Viralinn 2025 - Present

Founder & Product Engineer

- Took an AI content platform from discovery to launch: scoped the MVP, designed UX in Figma, and built the marketing site, onboarding, and app with React, Next.js, TypeScript, and Convex.
- Integrated image, video, voice, and music APIs; built an MCP server enabling AI agents to generate ad creative from a brief.
- Use onboarding calls, customer feedback, and funnel drop-offs to prioritize improvements and adapt workflows to paying customer needs.
- Delivered AI marketing assets for 15+ brands; helped a Swedish app company with 4M+ downloads launch a UK campaign with 35%+ lower cost per click than its typical campaigns.

ADM8 Sep 2026 - Present

Lead Product Engineer | Forward-Deployed Development & GTM Engineering

- Lead product improvements based on user feedback; translate enterprise needs and company objectives into custom workflows and tooling.
- Built workflows that reduced team time investment by 35%; created AI content trailers for European brands.

CapitalCollab Dec 2025 - Present

Product Engineer & Business Development

- Worked with sales users to define requirements and help replace 15 years of Salesforce workflows with AI-native internal tooling, reducing monthly platform costs from $1,200 to $100 (about 92%).
- Built automations that generated $35,000+ in revenue and email/GTM systems reaching 45,000+ U.S. business owners.
- Connected borrower-intake, sales, and underwriting workflows; worked directly with 15 business owners to identify suitable loan products and private credit opportunities.

GaaS Studios 2024 - Present

Owner & Lead Developer

- Generated $5,000+ in revenue building websites, AI automations, and marketing assets; scoped requirements with business owners and owned React/Next.js delivery through launch.
- Increased client website traffic by 75%+ and improved conversion through goal-oriented UX, marketing funnels, and API-driven outbound email systems.

LEADERSHIP & PROJECTS

Found[ERS] | Founder & Executive Director (2025 - Present)

- Grew a student founder community to 50 NYC members and connected founders with mentors; produced a pitch event with 35+ entrepreneurs and VC participants from across the U.S., awarding $500 to the top startup.

Studios | Founder & Developer: Built a churn-prevention product to flag at-risk customers; designed customer risk scoring and event tracking with Next.js and Convex.

Personal Brand: Generated 60,000+ cross-platform views and converted creative marketing experiments into leads and customers for products and tools.
